## NOTICE OF CONSTRUCTION ACTIVITIES

**TO ALL RESIDENTS**  
**UPCOMING WATERMAIN INSTALLATION AND REPLACEMENT WORK**  
**BOROUGH OF WALDWICK**  
**BERGEN COUNTY, NEW JERSEY**  
**OUR JOB NO. WA-1458**

**January 14, 2025**

**Dear Residents,**

AJM Construction will soon begin work in your area as part of the Sheridan Ave Watermain Installation Project. This project is aimed at improving the reliability, and circulation of the Borough's water distribution system. Principal items of this project will include the installation of new ductile iron water main, fire hydrants, and residential service connections to the curb stop valves.

Work is scheduled to begin on or about Friday, January 17 (weather permitting), with mobilization of equipment. The installation of the new water main is along **Sheridan Avenue between Bergen Avenue and East Prospect**. Equipment may be parked on side streets during construction, including overnight.

During construction, there will be periods when water service needs to be temporarily shut off in order to connect the new water main to the existing system and decommission the old water main. These shutdowns will be kept as short as possible, and residents will be notified **24 hours in advance** of any planned interruptions.

During construction, "**No Parking**" signs will be posted at least 24 hours in advance. Vehicles must be removed from the designated areas by the times indicated on the signs. Temporary traffic detours may be required, but local access will generally be maintained unless construction activities, such as open trenches, make safe passage impossible.

We appreciate your patience and cooperation as we work to improve the Borough's water infrastructure. If you have any questions or concerns, please contact me directly.  
Thank you for your cooperation,

**Chris Casey, P.E.**
